

§ 4279.126

coincident with an interest-rate adjustment. The lender will ensure that the outstanding principal balance is properly amortized within the prescribed loan maturity to eliminate the possibility of a balloon payment at the end of the loan.

(b) Any change in the interest rate between the date of issuance of the Conditional Commitment and before the issuance of the Loan Note Guarantee must be approved in writing by the Agency approval official. Approval of such a change will be shown as an amendment to the Conditional Commitment.

(c) It is permissible to have one interest rate on the guaranteed portion of the loan and another rate on the unguaranteed portion of the loan provided that the rate on the guaranteed portion does not exceed the rate on the unguaranteed portion.

(d) A combination of fixed and variable rates will be allowed.

§ 4279.126 Loan terms.

(a) The maximum repayment for loans on real estate will not exceed 30 years; machinery and equipment repayment will not exceed the useful life of the machinery and equipment purchased with loan funds or 15 years, whichever is less; and working capital repayment will not exceed 7 years. The term for a loan that is being refinanced may be based on the collateral the lender will take to secure the loan.

(b) The first installment of principal and interest will, if possible, be scheduled for payment after the project is operational and has begun to generate income. However, the first full installment must be due and payable within 3 years from the date of the Promissory Note and be paid at least annually thereafter. Interest-only payments will be paid at least annually from the date of the note.

(c) Only loans which require a periodic payment schedule which will retire the debt over the term of the loan without a balloon payment will be guaranteed.

(d) A loan's maturity will take into consideration the use of proceeds, the useful life of assets being financed, and the borrower's ability to repay the loan. The lender may apply the maximum

7 CFR Ch. XLII (1-1-14 Edition)

guidelines specified above only when the loan cannot be repaid over a shorter term.

(e) All loans guaranteed through the B&I program must be sound, with reasonably assured repayment.

§§ 4279.127-4279.130 [Reserved]

§ 4279.131 Credit quality.

The lender is primarily responsible for determining credit quality and must address all of the elements of credit quality in a written credit analysis including adequacy of equity, cash flow, collateral, history, management, and the current status of the industry for which credit is to be extended.

(a) *Cash flow.* All efforts will be made to structure or restructure debt so that the business has adequate debt coverage and the ability to accommodate expansion.

(b) *Collateral.* (1) Collateral must have documented value sufficient to protect the interest of the lender and the Agency and, except as set forth in paragraph (b)(2) of this section, the discounted collateral value will be at least equal to the loan amount. Lenders will discount collateral consistent with sound loan-to-value policy.

(2) Some businesses are predominantly cash-flow oriented, and where cash flow and profitability are strong, loan-to-value coverage may be discounted accordingly. A loan primarily based on cash flow must be supported by a successful and documented financial history.

(c) *Industry.* Current status of the industry will be considered and businesses in areas of decline will be required to provide strong business plans which outline how they differ from the current trends. The regulatory environment surrounding the particular business or industry will be considered.

(d) *Equity.* (1) A minimum of 10 percent tangible balance sheet equity will be required for existing businesses at loan closing. A minimum of 20 percent tangible balance sheet equity will be required for new businesses at loan closing. For energy projects, the minimum tangible balance sheet equity requirement range will be between 25 percent and 40 percent. Criteria for considering the minimum equity required for
